

MAMA ROSA F1 (UGI 1119 15)

Type

Pink, indeterminate beef tomato.

Cultivation

Suitable to all cultivation cycles under greenhouse, particularly for autumn-winter ones.

Cycle

Medium

Plant

Vigorous, balanced. Very high yields during all vegetation cycles. Big size up to upper clusters.

Fruits

Round-globe shape, deep pink color. Average weight 200-250 g. Good resistance to overripening and excellent shelf life. Good taste.

Remarks

For a best fruit management we suggest "pruning" leaving 4 fruits/cluster. Excellent flavor, good balance between acidity and sweetness. Good firmness and rachis during vegetation cycle and after harvest.

Resistances/Tolerances

HR*: ToMV/Ff: A-E/VaVd/Fol:0-1

IR*: TYLCV
