

ZANNYNO F1

Type

Indeterminate “datterino” tomato.

Cultivation

Suitable to all cultivation cycles under greenhouse.

Cycle

Medium-early.

Plant

Rustic, very high yields and quality until the end of the cycle.

Excellent tolerance to high and low temperature.

Fruits

Typical slightly elongated shape.

Bright red color and crunchy flesh.

Average weight 20g and nice fish bone clusters.

Remarks

High productivity until the end of the cycle.

Uniform and elegant clusters in all cultivation cycles, frequently twin clusters.

Fleshy dark green rachid and sepals, high tolerance to fruits detachment.

Excellent shelf life.
