

STROMBOLINO F1

It's a "Cherry" type hybrid whose characteristics make it ideal both for canned "Italian Ciliegino" processing and for fresh market in trays. Fruits are perfectly round, in clusters of 7-8 with an average weight of about 15-18 g.

Deep red color, exceptional firmness and resistance to over ripening. High level of lycopene, Brix and viscosity. Plant has got good vigor and excellent cover.

HR*/IR*: V, Fol 0-1, N, Pst, TSWV.
