

TROPICAL QUEEN F1

Indet. unif. green globe tomato flame maturing.

250 – 300 g plus, uniform shape and size.

Very high yields.

Very firm fruits free of crack and with good setting ability.

Selected for north africa and for special gh markets thanks to disease resist. Make it an “all season cultivation”.

HR*/IR*: ToMV, V, Fol 0-1, N, TYLCV, TSWV.
