

Hybrid Tomato Processing Sq/Rd **PRESTOMECH F1**

Square/round very early hybrid, 93 days from transplant.

Good cover plant, medium vigor, resistant to defoliation thank to “Rain Tolerant” gene.

Square/round fruits 60-65 g. Jointless.

Good color and good average Brix: 5.5°.

The strengths of Prestomech are: earliness, resistance to overripening, high brix.

HR*/IR*: V, Fol 0-1, N, Pst .
