

Hybrid Tomato Processing Pear **SUPERPEEL F1**

Early hybrid 95 days for peeling. Uniform ripening, J2, for mechanical harvesting.

Compact plant, good rusticity, thanks also to TSWV.

Good fruit setting at high temperature.

Firm fruits, deep red color, average weight 65-70 g, easypeel and bright red color, ideal for Italian market and small packing.

Good brix.

Can be used for any other industrial processing.

HR*/IR*: V, Fol 0-1, N, TSWV.
