

Hybrid Watermelon Diploid

MINI BLUE F1

The new “concept” Mini hybrid Crimson type, “Unigen 4 color” skin, is now already a top seller in the market.

Round shape 2,5-3,5 kg fruits with medium green base with dark green stripes and with blue/green shades, very attractive and innovative.

Size changes according to plant density. Skin thickness enable a very long storage and long distance transportation.

Bright red flash, no fiber and crunchy.

Small seeded and very sweet: brix 12° is an average.

Good vigor plant with good cover garanted by large leaves.

Very good set under all climatic area. Very early, for protected and open field.
