

Hybrid Watermelon Diploid **EARLY GITANA F1**

Very early dark striped Crimson.

Almost round shape, very uniform. Impressive earliness, very high production.

Strong vine mid-lrg leaves.

6 – 8 kg average.

Classic Crimson crispy flesh sweet and deep red color.

Very high brix 11.5.

Uniform thick rind, very good packer and traveller.

Ok for protected crops, small plastic tunnel and open field. Well performing also under warm climate.
