

Hybrid Tomato Processing Sq/Rd **UG 8114 F1**

New early season hybrid.

Mid vigor plant, compact with good cover and short internodes.

Square/round fruits. Average weight 70-80 g. Very firm.

Good brix and deep color.

Suggested for early trasplant but also in late season thanks to good resistance to overripening.

HR*/IR*: V, Fol 0-1, N, Pst, TSWV.
