

Hybrid Watermelon Diploid **UG 708 F1**

New "MIDI" hybrid crimson "Unigen 4Color®" skin.
Similar to Mini Blue but with different fruit size: 4-6 kg. Subject to plant density.
A new alternative for those producers that like an intermediate size, attractive and innovative.
Good vigor plant with good cover granted by large leaves.
Roundish/blocky shape fruit.
Ideal for protected cultivation and early harvest.
