

Miniplum, Midiplum and Mini S. Marzano ICHIGO F1

Type

Indeterminate Mini-midi plum tomato.

Cultivation

Suitable to all cultivation cycles under greenhouse.

Cycle

Medium

Plant

Vigorous and very productive until the end of the cycle.

Suitable for long cycle cultivation both for normal growing and outsoil.

Fruits

Elongated shape, slightly ribbed.

Excellent color in all productive cycles.

Average weight 25-30 g.

Remarks

For a best fruit management we suggest “pruning” leaving 4 fruits/cluster.

Excellent flavor, good balance between acidity and sweetness.

Good firmness and rachis during vegetation and after harvest.

Resistances/Tolerances

HR*: ToMV/Fol: 0-1

IR*: TYLCV/TSWV
