

Hybrid Melon **PORTUKALIS F1**

“Ananas/Galia” type. A new “special” melon.
Very rustic plant, high yield.
Medium-early cycle.
Oval-round shape very uniform.
Average weight: 2,5-3,0 kg.
White flash very sweet (Brix 14°) with a “unique” aroma.
Excellent storage.
For all geographic areas, in particular Southern Europe.
HR*/IR* : Fom 0-2, PM.
