

Hybrid Melon **PORTENTO F1**

Italian type hybrid early ripening.

Good vigor plant, good rusticity, good production and tolerance to Powdery Mildew.

Round/oval fruits, with evident net and sutures, creamy color at full maturity.

Average weight: 1,3-1,6 kg. Fruit with high specific weight.

Very firm flesh enabling a very good storage, with deep orange color.

Flavor is classic italian with high Brix (14-16°).

Ideal for protected, small tunnel and open field cultivation.

HR*/IR* : Fom 0-2, PM.
