

Hybrid Pepper Sweet
SWEET CHA CHA CHA F1
TMV

Hybrid classic sweet banana type for the eastern markets (charleston type).

Uniform long fruits 16-20×3-4 cm.

Pale green-yellow color, turn to deep orange-red at maturity.

Early, ripening, uniform fruits, 120-130 g average. Thick walls very good for fresh and pickling.

Good vigor plant, assure good cover and prolonged good production.

For green house and open field.

RESISTANCES: TMV.
