

Hybrid Asparagus UC 157 F1

Uc 157 F1 is a mid-early hybrid. Deep green compact head buds. Buds are mid size, ideal for fresh market and processing. Good vigor, for very early spring harvest and prolonged harvest, thanks to high tolerance to cold temperature. Disease resistances / tolerance: Fusarium, Asparagus Rust (Puccinia asparagi).
Plantation: m 1,50 between rows and 20-30 cm between plants on the line.
Uc 157 f1, thanks to buds medium size, is very appreciated by frozen industry.
