

## **Saladette** **BINGO F1**

Very early hybrid, 93 – 96 days from transplant. 40-50 g round fruited.  
Uniform fruits, high color, thick walls, very firm.  
Brix 5.8 – 6.0 and mid viscosity.  
Good Lyco level: 160 mg.  
Mid vigor plant with good cover.  
Very high fruit setting, high production.  
Multipurpose hybrid: paste, dicing, juice.  
Good potential also for fresh market packed in mini boxes or whole  
canning in jar.  
HR\*/IR\*: V, Fol 0-1, N, Pst.
